## DETAILED ACTION

In addition to the election of species filed on 5/24/2005 the applicant must also elect from one of the following groups.

### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-11 and 19-20, drawn to apparatus, classified in class 604, subclass 20.
- II. Claims 12-18, drawn to method of use, classified in class 604, subclass 500.

The inventions are distinct, each from the other because of the following reasons:

Inventions Group I and Group II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case method of Group II does not refer to the apparatus in Group I, hence the method of use described in Group II is not restricted to the apparatus in Group I.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
